

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

NOTES AND EXPLANATIONS.

Lists of students' names with home residences when at the Seminary or College are made from the annual catalogues.

Names beginning with M', Mac, Mc, or St., are arranged as if these words were not abbreviated.

When no State is named, Massachusetts is understood.

Non-graduates are classed in the last year of their connection with the Seminary or College.

Present residences are in *italics*. When residence and post-office address are not the same, preference is given to the latter.

The abbreviation "m." denotes *married*; "d." *died*.

Clergymen, lawyers, and physicians, when reported as such, are indicated by the titles, Rev., Esq., or M.D. A record of other titles is not attempted.

The letter [C.] indicates College Classical Course; [S.], Scientific Course; [L.], Literary Course.

Items received too late for insertion in their places will be found in the Addenda. Probably many unreported changes have occurred since compilation began.

Notice of any errors will be gladly received. Information is solicited concerning any whose record is not complete.

An early report of changes in any record is desired.

A copy of the annual catalogue will be sent each year to any Holyoke student who will each year report her address.

All communications may be addressed, *Registrar, Mt. Holyoke College, South Hadley, Mass.*

Grateful acknowledgment is made to all who have co-operated in furnishing or obtaining needed information, or contributed in any way to the preparation of this Catalogue.
